Most Viewed Articles

Article	Views
Analysis of External Water Pressure for a Tunnel in Fractured Rocks	1,029
Upscaled Lattice Boltzmann Method for Simulations of Flows in Heterogeneous Porous Media	871
Formation Pore Pressure Variation of the Neocomian Sedimentary Succession (the Fahliyan Formation) in the Abadan Plain Basin, SW of Iran	707
Numerical Validation of Analytical Estimates for Propagation of Thermal Waves Generated by Gas-Solid Combustion	698
A low-cost automated test column to estimate soil hydraulic characteristics in unsaturated porous media	505
The Solubility of Tugarinovite (MoO ₂) in H ₂ O at Elevated Temperatures and Pressures	466
Modeling the Mechanisms of Clay Damage by Molecular Dynamic Simulation	456
Processes governing alkaline groundwater chemistry within a fractured rock (ophiolitic mélange) aquifer underlying a seasonally inhabited headwater area in the Aladaglar Range (Adana, Turkey)	450
Representing glaciations and glacial processes in hydrogeological models: a numerical investigation	439
Fault-related controls on upward hydrothermal flow; an integrated geological study of the Te ^h t fault system, Eastern Pyre ⁿ es (France)	430

Most Viewed Special Issue Articles

Article	Views
Realtime pore pressure detection - indicators and improved methods	798
An experimental study on solute transport in one-dimensional clay soil columns	696
Numerical investigation into the impact of CO ₂ -water-rock interactions on CO ₂ injectivity at the Shenhua CCS demonstration project, China	683
A Pore-scale Simulation on Thermal-Hydro-Mechanical Coupling Mechanism of Rock	667
Computing and comparing effective properties for flow and transport in computer-generated porous media	513
Hydrothermal dissolution of deeply-buried Cambrian dolomite rocks and porosity generation: Integrated with geological studies and reactive transport modeling in the Tarim Basin, China	453
Effect of Flow Direction on Relative Permeability Curves in Water/Gas Reservoir System: Implications in Geological CO ₂ Sequestration	440
Determining the REV for fracture rock mass Based on	

Determining the key for fracture rock mass based on Seepage Theory	429
Flow and transport in tight and shale formations	405
Distribution and thermal maturity of Devonian carbonate reservoir solid bitumen in Desheng area of Guizhong Depression, South China	377
